Jevin Parmar

Full-Stack Developer
jevinparmar110@gmail.com | 7567051500 | Rajkot, Gujarat| GitHub | LinkedIn|

Professional Summary

MCA student and Full-Stack Developer with hands-on experience in building web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Currently working on freelance projects for real-world clients, with experience in developing responsive user interfaces, REST APIs, JWT authentication, and database integration. Proficient with Git, GitHub, and Postman, with a strong focus on building scalable and user-friendly web applications.

Education

Marwadi University (NAAC A+) — Jul. 2025 – Present
Master of Computer Applications (MCA) — Rajkot, Gujarat
Saurashtra University — Jun. 2022 – May 2025
Bachelor of Computer Applications (BCA) — Rajkot, Gujarat

Experience

Freelance Full-Stack Developer | 2026 – Present

- Working on two real-world web applications for offline clients, handling frontend, backend, database, testing, and feature implementation.
- Developing responsive interfaces using React.js and building REST APIs with Node.js and Express.js.
- Working with PostgreSQL databases to manage application data, relationships, CRUD operations, and business workflows.
- Implementing client-requested features, resolving bugs, improving existing functionality, and optimizing application performance.
- Working directly with client requirements and converting business needs into functional, production-ready features.

Technical Skills

Languages : JavaScript, Java, Python, SQL
Front-End : React.js, HTML5, CSS3, Tailwind CSS
B**ackend** : Node.js, Express.js, REST APIs, JWT Authentication
Databases : MongoDB, MySQL, PostgreSQL, Firebase
Developer Tools : Git, GitHub, Postman
Other Technologies : Flutter, Android Development

Projects

GhostClip | React.js,Node.js, Express.js, Flask |Personal Project | 2026

- Developed a responsive web application to download Instagram reels and posts without requiring user login.

- Designed a modern dark/light mode interface using React.js and Tailwind CSS.
- Built backend APIs using Node.js, Express.js, and Flask for media extraction and download processing.
- Implemented responsive design for desktop and mobile devices.
- Technologies: React.js, Node.js, Express.js, Flask, Tailwind CSS, REST APIs.

Real-Time Chat Application | MERN Stack, Socket.io, Flutter |MCA Project | 2026

- Built a real-time messaging application for both web and mobile platforms.
- Implemented user authentication, one-to-one messaging, online status, typing indicators, and image sharing.
- Developed REST APIs using Node.js and Express.js for user and chat management.
- Stored user profiles and chat history in MongoDB.
- Technologies: React.js, Node.js, Express.js, MongoDB, Socket.io, Flutter.

AI Chatbot Android Application | Java, Android Studio, Firebase, Groq API |MCA Project | 2026

- Collaborated in a team to develop an AI-powered Android chatbot application.
- Integrated Groq API to generate intelligent responses and Firebase for authentication and chat history.
- Designed responsive Android user interfaces using XML layouts.
- Implemented API integration, error handling, and real-time data synchronization.
- Technologies: Java, Android Studio, Firebase, Groq API.

Certifications

- Completed LinkedIn Learning certifications in Node.js, Express.js, and MongoDB.
- Completed Front-End Web Development certification in modern HTML, CSS, and JavaScript.
- Completed AWS Cloud Computing certification through AWS Academy.

Languages

Gujarati, Hindi, English
